SELECTMEN'S REPORT

Through inventory of April 1960, we found that there were 770 persons liable to a Poll Tax, 249 were exempted and 77 were over 70 years old, for a total of 1096 over 21 years old. Exempted were 238 veterans, 9 veteran widows and 2 blind.

Whitten Street was torn up, regraded, graveled by Plourde Sand and Gravel. The road mix was applied by a state crew.

On Ray's Court, Campbell Street, Notre Dame Extension, the streets were road mixed by state crew.

Sewers were extended on Reserve Street and Al's Avenue. Also part of Ridge road. The town furnishing the pipes and Victor Girard doing the trenching and backfilling at his expense.

As to Main Street Bridge, an article will appear in the Town Warrant for an appropriation to do this work in 1961.

Mr. Armand Dugas was appointed Trustee of Trust Funds.

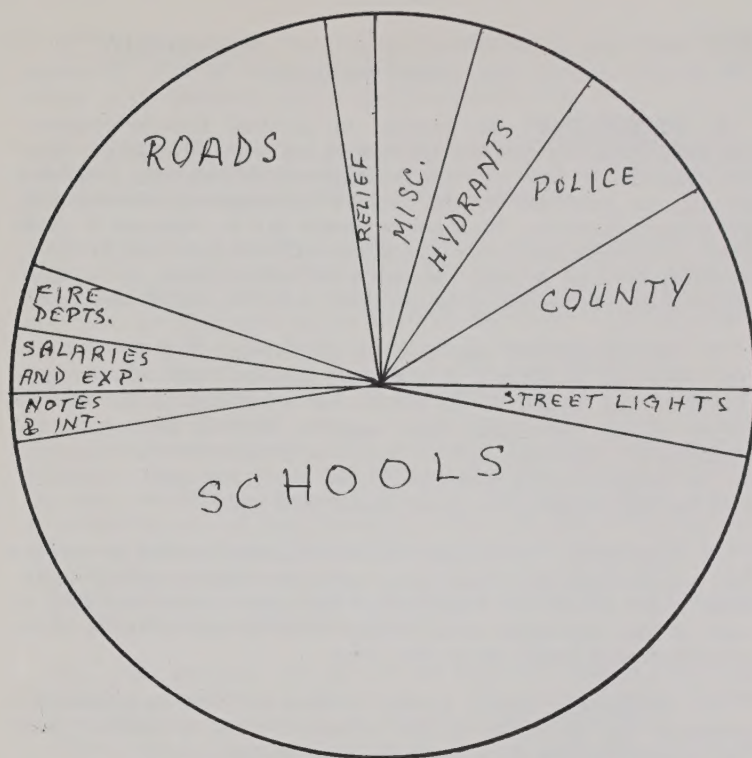

Mr. Henry Baron has been appointed Health Officer.

The booklet of real estate assessments of the town as requested by a vote at town meeting in March 1960, will be available to all citizens of Allenstown at Town Meeting this March 1961.

It is with regret to see Mr. Henry Lavoie decline to run for the office of Fire Chief, having fulfilled this duty for the past 18 years in a most satisfying manner. We as representatives of the people of Allenstown would like to thank him for his services in the past and his record while in office will show him to be one of the most faithful officials the town ever had.

Respectfully submitted,

WILLIAM L. BAILLARGEON

Summary of Receipts and Expenditures: (Exhibit B-1)

A summary statement, of receipts and expenditures for the fiscal year ended December 31, 1960, made up in accordance with the uniform classification of accounts, is included in Exhibit B-1. Proof of the Treasurer's balance as of December 31, 1960, is indicated in Exhibit B-2.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records. The amounts of uncollected and unredeemed taxes as indicated in this report are therefore subject to any changes which may be necessitated by the return of verification notices.

GENERAL COMMENTS

Current Surplus:

The current surplus (excess of total assets over current liabilities) decreased by \$1,326.79, from \$13,715.62 to \$12,388.83, during 1960 as shown herewith:

	<u>December 31, 1959</u>	<u>December 31, 1960</u>
<u>Total Assets</u>	\$43,334.63	\$43,584.57
<u>Current Liabilities</u>	29,619.01	31,195.74
<u>Current Surplus</u>	<u>\$13,715.62</u>	<u>\$12,388.83</u>

Overdraft of Appropriations and Application of Municipal Budget Law:

It is noted that in the fiscal year ended December 31, 1960, there was a net overdraft of appropriations amounting to \$3,751.21. In other words, total expenditures exceeded total appropriations by this amount.

In accordance with the provisions of the Municipal Budget Law, R.S.A., Chapter 32, under date of November 10th, 1960, application was made to the Tax Commission by the Board of Selectmen, with the approval of the Budget Committee, for a certificate of emergency authorizing expenditures in excess of budgetary appropriations in an amount not to exceed \$1,000.00. This authority was granted by the Commission on November 30, 1960.

It is noted, however, that the actual net overdraft of budgetary appropriations of \$3,751.21, exceeded the authorized excess expenditures by \$2,751.21, as indicated herewith:

Overdrafts of Appropriations	\$6,020.18
Unexpended Balances of Appropriations	2,268.97
	<u>\$3,751.21</u>
Less: Certificate of Emergency to Exceed Appropriations	<u>1,000.00</u>
Unauthorized Overdraft of Budgetary Appropriations	<u>\$2,751.21</u>

Surety Bond of Town Clerk:

The surety bond of the Town Clerk should be increased from \$1,000.00 to \$2,000.00

Conclusion:

The provisions of Chapter 184, of the Laws of 1955, require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the Town.

We extend our thanks to the officials of the Town of Allentown for their assistance during the course of the audit.

Yours very truly,

CIVIL DEFENSE

The local Civil Defense Department has participated in several exercises in accord with the State and National Civil Defense during the past year.

Although we do not have, as yet, a completely staffed Civil Defense Unit in Allenstown, our Police and Fire Departments are fully instructed in emergency methods and have responded promptly and efficiently on all occasions and are in a position to enlarge their activities should an emergency arise.

The Fire Department has been able to secure some surplus equipment from the state at a very low cost and as new items are available will be able to obtain more.

We wish to thank the School Department for their co-operation in the evacuation of the children at the time of each alert and look forward to its continuing in the future.

We also wish to thank the citizens for their interest and help in making these alerts a success during the past year.

John F. Lynch,
CIVIL DEFENSE DIRECTOR FOR ALLENSTOWN

PREVENTION IS YOUR BUSINESS

Carelessness, HUMAN CARELESSNESS, causes 9 out of 10 forest fires. Each year 200,000 fires burn over 30 million acres in the United States. This represents 5 percent of our nation's woodlands being wasted each year. Every fire takes its toll. Floods follow; stream flow is affected; timber, buildings, grazing and wildlife are destroyed - all because MANY are CARELESS with fire in and near woodland. This can be remedied. YOU can put an end to this shameful waste! PREVENTION is YOUR business!

YOU, whether YOU be a farmer, homemaker, business or professional man or woman, municipal, state or federal official, clerk or woodsman can play an important part in the continuing and vital prevention program.

First - by setting a good example YOURSELF - being sensible and complying with the necessary laws and regulations governing the use of fire in and near woodlands.

Second - by using YOUR individual influence in your community and valued council with others in insisting and encouraging them to do likewise.

The following simple rules may be used as a guide both for YOU and for them.

1. Before burning, secure a permit from your local forest fire warden - the law requires it.
2. Be sure to properly supervise your burning - don't leave it.
3. Make certain your fire, camp or debris, is DEAD OUT before leaving it.
4. Don't throw down lighted matches, cigars and cigarettes or from moving vehicles - make sure they are out - use your ash tray.
5. Don't burn at home - use your town dump and save yourself much possible difficulty, both personal and financial.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

February 1, 1960

To the School Board of Allenstown:

In submitting my fourteenth report as the superintendent of schools in Allenstown, may I express my thanks and appreciation for the kindnesses received from those board and staff members as well as the citizens with whom I have had the pleasure of being associated since the fall of 1947.

Since that time the school population has increased to such an extent that we are now faced with a situation whereby, unless something is done immediately, we will not be able to get our children into the classrooms and will be forced to utilize the play area in the basement as the only space left in the school or operate under a two-platoon system. Such a system would divide the school day into two sections with one section going until noon and the second until four or five in the afternoon. Of course, this is not only costly because we would have to hire two sets of teachers, but also because the school year would have to be extended in order for each section to get the equivalent of 180 full school days.

As in past years, there are two items in the budget which total more than 75% of the entire amount. Teachers' Salaries and Tuition. This leaves but 25% of the money to be raised for such items as fuel, equipment, retirement, books and supplies, debt and interest, school lunch, and other miscellaneous items.

The district has no control over tuition since the schools to which you send your children establish the rate. Since many children from Allenstown go to Pembroke Academy, it is important to know that the tuition rate for 1961-62 will be \$420 per pupil. According to the best estimates we can find, Allenstown will be sending 55 students to Pembroke Academy next year at \$420 per child or a total of \$23,100.00. From experience we have learned that a few drop out each year. Therefore, the board has estimated that \$22,000 should be sufficient for this item.

We have very little control over the salaries of teachers and many of your neighboring towns are in the same situation. This means then that we are trading in a very competitive market. There will be very few school districts in this state, outside of Manchester, which will hire new or beginning teachers for less than \$3,800 or \$3,900, while the experienced teacher will cost from \$4,000 to \$4,800.

Of the remaining items in the budget, retirement and books and supplies are probably the most important. Retirement is based upon salaries and supplies on the number of children in the school. With the rise in salaries and the constant increase in the cost of supplies, you can readily understand why more funds are necessary for these items.

A long study has been made concerning the need for better education for the children in Grades 7-8-9. A committee from Allenstown, Hooksett and Pembroke has been working on this problem for nearly a year and the citizens of the school district will be asked to listen to a report of the results. There is no question of the need for increased classroom space for the children and there is no question that the Junior High School would give to these children an improved and more comprehensive education. The voters are strongly urged to weigh the merits of the cooperative plan very carefully before making a final decision.

However, there may be a possibility that such a plan will not be in accord with the majority of the people of the town. The really serious objection to it could be in the cost, but it just so happens that should Allenstown vote to join the cooperative plan, the cost would be \$10.00 less on the total tax bill than the cost would be if the financing was done alone on their own building.

Nevertheless, the district does have a site for a new building and the voters will have a chance, which is their right, to decide what seems to be best for Allenstown. Please remember, however, that you are building for the future and your children, the boys and girls of the town. Give this entire problem your best thought and attention.

In the years of my association with the members of the Allens-town School Board, and there has been no change since I came to the position, I consider it my good fortune to be able to say that all have been vitally interested in the education of the children of the town. Not only has it been a pleasure to serve you and your children, but also a privilege to have been able to remain for the past 14 years.

Respectfully submitted,

MURRAY H. WATSON,
Superintendent of Schools
